Mulepos Releases New Version of its Head Office Solution

Mulepos today announced it will launch a new version of its application, Head Office Professional, which works with **Microsoft Windows® 7 and Microsoft Windows Server® 2008 R2** to offer customers enhanced security, as well as innovative user interface features and reliability improvements. **Head Office Professional takes advantage of the latest software, database and communications technologies to enable pharmacy groups of all sizes to effectively manage their collective retail businesses.**

“Our ISV community is alive with innovation, and we’re committed to helping our partners drive the next generation of software experiences,” said Ross Brown, Vice President of ISV and Solutions Partners for the Worldwide Partner Group at Microsoft.

“Adding compatibility for the latest Microsoft operating systems helps ISVs to stay ahead of the competition and give their customers access to cutting-edge technologies.”

“**Mulepos** is excited to launch this new version of **Head Office Professional**” said Tom Attwood, Managing Director at Mulepos. “Making our application compatible with **Microsoft Windows 7 and Microsoft Windows Server 2008 R2** helps us offer our customers compelling benefits, including: intuitive user interfaces such as multi-touch, improved security and reliability features, tools to keep them connected to data stored on the Web, advanced graphic hardware acceleration, full support for multi-core processing, sophisticated management features, intelligent power management, flexible access administration to improve mobile working.”

Head Office Professional is developed using Microsoft.NET with advanced user interface and reporting facilities to enable users to visualize and react to the diversity of information that the system provides. Head Office Professional uses a powerful SQL database which allows inventory management and pricing policies to be updated across the pharmacy group's estate and branch transactions to be collected in 'real' time. Head Office Professional is part of the Multepos .NET pharmacy retail software suite.
